Your President Speaks...

David Adkisson came to town last week for a very important event – Mother's Day! And, he also stopped by the club and presented our program. Most of us remember "Mayor Dave" and the major impact he had on our community while he was involved here. The Greenbelt, as well as downtown beautification, would not exist were it not for his vision for our future. Dave is now President and CEO of the Kentucky Chamber and works diligently on behalf of Kentucky businesses in legislative initiatives and lobbying. He is also serving as chairman of the National Chamber this year and has traveled to Dubai with chamber representatives of our fifty states who visited that country and several of its businesses. For our program last week, he gave a presentation on the financial state of Kentucky government and showed us the "leaky bucket" we have in our state coffers. The main culprit, as is true in the majority of businesses and governments across the country, is healthcare/retirement benefits, with Medicaid running a close second. These are not just leaks, they are an outpouring! Always great to see Dave at our gathering and we appreciate his sharing with us.

We also welcomed our newest member, **Derek Hetherington**, a commercial relations officer with US Bank. Derek was a member of the Campbellsville Rotary Club, is married to a golf coach (!), and has two children. Please make him welcome. One more new member and we'll have our next Rookies Team!

No one claimed the 50/50 drawing last week, so we have a rollover. Be ready to play this week – it might be your lucky day! This week's program will be the Larry Hager Awards. Please support this special awards program named in honor of a special Rotarian. We'll be recognizing area students for their academic achievement and leadership. Come have lunch, enjoy the fellowship and program.

There will be a Rotary Foundation board meeting Wednesday after the regular club meeting.

REMEMBER – THE FUTURE OF ROTARY IS IN YOUR HANDS!

See you Wednesday,
President Patty
